

Policy

ACCIDENTS

Each principal shall develop a program of accident prevention suited to his/her school. The superintendent shall review and approve such programs. When unforeseen situations arise, and an accident occurs, a school nurse or other assigned staff member shall be responsible for providing emergency services to a child or staff member. The medical inspector shall prepare a list of first aid treatment for the most common minor injuries. This list shall be made known to the staff.

Guidelines for Dealing with Accident/Injury

- A. The school nurse or another trained person shall be responsible for administering first aid. Universal precautions shall be taken in the handling of blood and body fluids to ensure the containment of bloodborne pathogens (see policies and regulations 4112.4/4212.4 Employee Health and 5141.2 Illness);
- B. In all cases where the nature of an injury appears in any way serious, every effort shall be made to contact the parent/guardian and/or family physician immediately;
- C. Parents/guardians shall be requested to pick up their child. If a parent/guardian is unable to provide such transportation, no student who is injured shall be sent home alone. A student who is injured shall not be taken home unless it is known that someone is there to receive him/her;
- D. In extreme emergencies, the school nurse, school doctor or principal may make arrangements for immediate hospitalization of injured students, contacting parents/guardians in advance if at all possible;
- E. The teacher or other staff member who is responsible for a child at the time an accident occurs shall make out a report within 24 hours on an official form providing details about the accident. This shall be required for every accident whether first aid is necessary or not;
- F. Any injuries or accidents to students shall be reported as soon as possible to the superintendent and the board.

Staff shall be informed at the beginning of each school year of the accident prevention program and procedures to be followed in case of an accident/injury.

Adopted: November 28, 1990
Revised: December 3, 2003
